

Famous Hits Band

"The Sounds of San Francisco"

Now appearing on big stages at concerts, fairs and festivals. Limited club engagements.

Richie with Ron, Gary and Larry Cambra

From Beserkley, California, the Famous Hits Band was formed in the 80s by Richie Varrasso and his associated bandmates as a way to play the clubs without using the headliner's name. The alumni of professional musicians tells a story in itself. The hit songs played by these cats reflect the sounds of San Francisco Bay Area music at its finest. This band brings the culture and flavor of the artists from the City of Love. Tipping our hats to the rockstars we actually worked with, the new Famous Hits Band is now located in Southern California with featured artist Gary Cambra, a highly professional and sought after utility player and record producer from The TUBES and a number of other acts. Gary's veteran musician brothers, Larry Cambra on bass, and Ron Cambra on drums, comprise the rhythm section.

Together, Richie and Gary will highlight their favorite songs from Greg Kihn, Eddie Money, Montrose, The TUBES, Gregg Allman, and many other artists on the list of top Bay Area nobility. The Sounds of San Francisco come alive with this band as an action-packed set of known hits with B-sides and stories from the road and big festivals.

This is a highly professional ensemble polished and ready to perform.
