

Richie's Famous Hits

"The Sounds of San Francisco"

Now appearing solo on small stages at cafe's, pubs and festivals. Limited engagements in San Diego

Richie Varrasso - solo; duet; band; emcee

From Beserkley, California, the Famous Hits Band was formed in the 80s by Richie Varrasso and his associated bandmates as a way to play the clubs without using the headliners name. The alumni of professional musicians tells a story in itself. The hit songs played by these cats reflect the sounds of San Francisco Bay Area music at its finest. His band brought out the culture and flavor of the artists from the City of Love.

Richie is now located in Southern California and brings the spirit of his music with him, playing hit songs highlighted from Greg Kihn, Eddie Money, Montrose, The TUBES, Gregg Allman, Tom Petty and many other artists on the list of top music nobility. The Sounds of San Francisco come alive while an action-packed set of known hits with B-sides and stories from the road's big festivals is captured on a small stage with community neighborhood folk. The stories alone are worth the time and effort because now the audience becomes family and part of the cultural exchange. This personable contact proves to be a great celebration as this acoustic show is not background music!
